

Q&A – Outpatient Behavioral Health, June 3, 2020, 10:00 a.m. (Presenter: Pam Raisley)

Q 1. What is the age range for STBS members?

A *Rebecca: Policy no longer states an age range for the STBS program.*

Q 2. STBS is coverage for pregnant women limited to pregnancy related health care services, this will now include full scope outpatient behavioral health benefits.

A *Members on STBS will now possibly be eligible for Mental Health Services through a DMH Contracted Provider. This is not a benefit, but a placeholder, allowing the member to see if they qualify for Mental Health Services. If a member requests services through a DMH provider, the center will assess their eligibility, both clinical and financial.*

Q 3. On the PA, if the line indicates "modified" how can we identify what has been adjusted.

A *Crystal Hooper: For clarification on an outpatient PA please contact the PICIS helpdesk at (405) 248-9326.*

Q 4. Where can I see the full rule change for the Case Management unit that goes into effect on 09/01/2020?

A *Crystal Hooper: Hi Gail, I'm not sure what you're referring to. Please feel free to email me crystal.hooper@okhca.org. Thanks!*

Q&A – Outpatient Behavioral Health, June 10, 2020, 2:00 p.m. (Presenter: Ross Riley)

Q 1. Insure Oklahoma or OEPIC insurance is for just small business or based off income??

A *Pam: Members can enroll through the Individual plan through the MySoonerCare.org website also.*

Q 2. Why the major discrepancies in care and reimbursement between groups and agencies?

A *Agencies get paid more, because they have acquired the required Accreditation, which is very costly, and therefore results in a different and higher fee schedule.*

Q 3. One of our under supervision for licensure providers passed their exam this weekend and is now fully licensed. Do we need to do a new contract for her?

A *Yes, the provider will need to do a brand-new contract, for a Licensed BH professional.*

Q 4. The new fee schedule for agencies coming out in September, do they have any information out on that yet, if so where can i find it.

A *The fee schedule we referred to came out in September 2019, and is available on the OHCA website, on the Behavioral Health Page.*

Q 5. I own a pediatric therapy center and I'm wanting to bring in BH for our clients. Can the behavioral health therapist also be a case manager or is that a separate licensed professional?

A *A LBHP is fully qualified to deliver BHCM services without additional certification. BHCM services are only compensable in a BH agency setting. The BH agency must be certified by DMH for the provision of BHCM services.*
