Dear SoonerCare Provider,

The Oklahoma Health Care Authority is engaged in an effort to improve the quality of prenatal care for SoonerCare members. A recent review of SoonerCare pharmacy paid claims between 2012 and 2019 showed the following:

- The percentage of members **utilizing a prenatal vitamin** compared to deliveries has **dropped from 76% to 59%**.
- Most pregnant members only had **2 paid claims per pregnancy** for prenatal vitamins.

It is important to note the following regarding SoonerCare coverage of prenatal vitamins:

1. **Preferred** prenatal vitamins **do not require a prior authorization**; and
2. Prescriptions for prenatal vitamins **do not count towards monthly prescription limits**; and
3. All preferred prenatal vitamins have a **\$0 copay** when filled as a prescription.

Attached is a list of prenatal vitamins that are covered by SoonerCare without a prior authorization. To simplify the prescribing process, you can simply write the prescription for **“prenatal vitamins with folic acid 1mg”** and include other desired ingredients such as “plus DHA”. Due to frequent shifts in availability of these products, this allows pharmacies to fill the prescription promptly with the appropriate prenatal vitamin they have in stock which meets the patient’s needs. If no products on the preferred list meet the specific needs of your patient, a prior authorization request may be submitted for consideration, along with supporting information for use of the non-preferred product.

Please note a prior authorization is required for most brand-name prenatal vitamins. However, the Citranatal® line of products are preferred and do not require prior authorization. Updated versions of the preferred prenatal vitamin list can be accessed at <http://www.okhca.org/rx>, by clicking on “Prenatal Vitamin List.” This list may be updated periodically based on market conditions.

Thank you for the services you provide to Oklahomans insured by SoonerCare!
