

**OHCA TRIBAL CONSULTATION**  
**MEMORANDUM OF AGREEMENT**

**Oklahoma Health Care Authority and Oklahoma City Area Inter Tribal Health Board**

This Memorandum of Agreement (MOA) is made this 4 day of Dec, 2007, by and between Oklahoma Health Care Authority (OHCA) and the Oklahoma City Area Inter Tribal Health Board (OCAITHB).

**BACKGROUND**

The presence of Tribal Governments predates both the formation of the United States and the State of Oklahoma. As sovereign nations, Tribal Governments exercise inherent sovereign powers over their members, territory and lands. Tribal Governments have an inalienable and inherent right to self-governance, meaning governance in which decisions are made by the people who are most directly affected by the decisions.

The United States (U.S.) recognizes Tribal governments as sovereign nations and enjoys a unique government-to-government relationship with Tribal governments. This relationship is grounded in numerous treaties, statutes, court decisions, and executive orders. Because of this government-to-government relationship, Tribal members have a unique legal and political status which is based on Tribal membership rather than a racial category.

The State of Oklahoma has long recognized a government-to-government relationship with the Tribal governments located in the state. Additionally, the State of Oklahoma recognizes the unique status of Tribal governments and is charged with the duty to work in a spirit of cooperation with all federally recognized Tribal governments in furtherance of federal policy for the benefit of both the State of Oklahoma and Tribal Governments<sup>1</sup>.

The Oklahoma Health Care Authority (OHCA) is the single state agency with the responsibility of directing the administration of the Medicaid and SCHIP program in Oklahoma. The mission of the agency is to purchase state and federally funded health care in the most efficient and comprehensive manner possible and to study and recommend strategies for optimizing the accessibility and quality of health care.

In recognition of the government-to-government relationship, the OHCA strives to maintain active communication and coordination with Tribal governments in health related matters. The OHCA is committed to active communication with Tribal governments during the OHCA decision making and priority setting process. An activity of the OHCA communication process with Tribal governments is the implementation of Tribal consultation activities.

The Oklahoma City Area Inter Tribal Health Board is a non-profit organization located in Oklahoma City and comprised of Board members representing Tribal governments within the Oklahoma City Area Indian Health Service (IHS) service units. The OCAITHB provides valued

services to Tribal Governments within the borders of Oklahoma in the areas of information dissemination, meeting coordination, policy development, and inter-governmental collaboration. The OCAITHB convenes and coordinates numerous Tribal conferences, meetings, and events on an annual basis.
