## FQHC & RHC Claim Fluoride Varnish Billing

OHCA PRN 2011-03

July 6, 2011

### FOHC & RHC Providers

Oklahoma Health Care Authority (OHCA) is excited to announce that we have expanded coverage to allow the application of fluoride varnish by SoonerCare member's primary care providers. This letter is to clarify the appropriate billing for the application fluoride varnish for member's ages 12 to 42 months during the course of a well child visit.

The fluoride varnish should be supplied by the provider's office. OHCA recommends a 5% sodium fluoride varnish. If your office is interested in training and certification for the application of fluoride varnish, there are free, online courses for physicians who wish to be certified. Visit our website for more information at: [www.okhca.org/fluoride-varnish](http://www.okhca.org/fluoride-varnish). Once you have completed the courses, you must print the certificate, put your SoonerCare provider number on it, and fax it to 405-530-7137 so that it can be added to your provider file.

OHCA encourages FOHC & RHC providers to provide these services to SoonerCare members. Although these services are included in your PPS encounter rate, please include the appropriate CPT codes when filing claims. Including these services when filing claims allows OHCA to collect the appropriate information for reporting purposes.

If you have any questions or require additional information please contact Kelly Botten in the Provider Reimbursement Unit by phone at (405) 522-7108 or by email at [Kelly.Botten@okhca.org](mailto:Kelly.Botten@okhca.org)

Thank you for your continued service to Oklahoma's *SoonerCare* members.
