RE: Diagnosis Codes on Prescriptions

Dear SoonerCare Provider,

The Oklahoma Health Care Authority (OHCA) is capturing diagnosis codes when submitted on a pharmacy claim as per National Council for Prescription Drug Programs (NCPDP) billing standards. Pharmacy claims submitted using the NCPDP claim format can enter diagnosis codes in field 424-D0. Pharmacies are encouraged to enter the diagnosis code on a pharmacy claim anytime a diagnosis is written on a prescription. A pharmacist may document the diagnosis code on the original or electronic prescription if confirmed by the patient or the prescriber.

Effective 04/17/2020, the OHCA will waive co-pays at the point-of-sale for prescription drug products used to treat COVID-19. SoonerCare members will not be required to pay co-pays, and providers should not collect co-pays, for any medically necessary **treatment for a confirmed** COVID-19 diagnosis. Pharmacy claims will need to be submitted with ICD-10 code B97.29, Z03.818, Z20.828, Z11.59, or U07.1. This will ensure the claim will not be subject to a co-pay.

Effective immediately, the OHCA is encouraging the use of diagnosis codes on prescriptions for contraceptives. The diagnosis code is needed for OHCA federal reporting purposes for contraceptives billed as a pharmacy claim when used as family planning. At this time, the adjudication of the claims will not be affected. However, claims will be denied when a diagnosis is not entered for contraceptive claims in the future. OHCA will alert pharmacies prior to denying claims for contraceptives with no diagnosis. Acceptable diagnosis codes for contraceptives are listed below.

<u>Diagnosis Code</u>	<u>Diagnosis</u>
Z30*	encounter for oral contraceptive management
E28.2	polycystic ovarian syndrome (PCOS)
N80*	endometriosis
L70*	acne
F32.81	premenstrual dysphoric disorder (PMDD)
N92*	excessive, frequent, and irregular menstruation
N93.8	abnormal uterine and vaginal bleeding, specified
N93.9	abnormal uterine and vaginal bleeding, unspecified

*any number or letter combination of UP TO FOUR numbers and letters of an assigned ICD-10-CM diagnosis code

Thank you for the services you provide to Oklahomans insured by SoonerCare!
